

Language B (Spanish) – Year 2

Course description

Language B in the 7th grade was developed using the NC Standard Course of Study and the MYP objectives as our guidelines. At the intermediate level, we will focus on the development of proficiency. This program will provide sequential instruction to ensure the development of the necessary language skills: speaking, listening, reading and writing.

At the intermediate level, students will expand on the language skills acquired in year 1. Reading and writing will continue to be natural extensions of the listening and speaking skills.

Students will communicate orally and in writing with their peers and others using more complex language. They will explore viewpoints and attitudes behind traditions, celebrations, people's attitudes and by doing so they will reflect on their own culture and language.

Aims

The aims of the study of a modern foreign language (Spanish) are to:

- enable the student to use language effectively as a means of practical communication, providing a sound base of communication skills necessary for future study, work and leisure
- enable the student to understand the nature of language and the process of total language learning, which comprises the integration of linguistic, cultural and social components
- enable the student to develop an appreciation of a variety of literary and non-literary texts
- offer insight into the cultural characteristics of the communities where the language is spoken
- encourage an awareness and understanding of the perspectives of people from other cultures
- promote involvement with different communities, where relevant
- provide access to varied sources of information
- foster curiosity, a lifelong interest and enjoyment in language learning.

Objectives

After year 2, students will be able to:

- exchange information and express ideas and opinions about a variety of topics
- comprehend factual information and attitudes, expressed in spoken and written contexts without relying as heavily on visual cues or props
- find specific information and draw conclusions from spoken and written texts
- understand and appropriately use more complex structures and vocabulary
- request and provide information in both spoken and written contexts
- engage actively in oral production using proper pronunciation and intonation
- comprehend and talk about cultural and international issues.

Areas of interaction

- **Human Ingenuity (HI):** Students will learn to examine, experience and reflect on the creative process using the language B and associated cultures as a basis for discussion of the principles of Human Ingenuity.
- **Approaches to Learning (ATL):** Students will learn to take responsibility for their own learning in language B through effective language-learning strategies: reading and listening for main ideas, specific information and deducing meanings from context, speaking, writing, responding effectively, questioning, etc.
- **Health and Social Education (HSE):** Students in language B will further their understanding of people from other cultures and develop an open mindedness towards differences in those cultures. They will also have the opportunity to develop a sense of responsibility for their own well-being and for their physical and social environment.
- **Environments (E):** Students will acknowledge the importance of the interdependence human beings and the world. They will be encouraged to develop positive attitudes to contribute to improve their environments.
- **Community and Service (CS):** By understanding the world around them and discovering the social reality of self, and others and communities, students will be encouraged to become responsible citizens.

Student Resources

All students will be provided with a textbook, activity workbook and CD-ROM Realidades I and ¿Qué tal? magazine. Students will have access to books and songs in the target language, newspapers, DVDs, internet and games.

Methodology

Day after day, the world is becoming more and more interdependent. As a result, it's very important that today's youth becomes culturally and linguistically prepared to participate in a global society. Language B has been designed in a sequential manner to fulfill that particular need. It will allow students to perform the four skills of the language: listening, speaking, reading and writing. Culture is contemplated and integrated throughout all instruction.

Topics

- Understanding contextualized directions, commands, key words and phrases
- Making inferences from the materials they hear or read
- Relying heavily on visual cues and/or props
- Gaining some insights into other cultures as well as their own
- Understanding, practicing and applying communication skills through the study of grammar
- Learning vocabulary as a tool to express their thoughts and needs.

Assessment

Assessment incorporates the 5 criteria of MYP modern foreign languages. Students will also receive standardized scores on tests, quizzes and homework assignments. Projects will be assessed using the IB criterion rubrics and standardized grading rubrics.
